IWSS. has been established to fill in the gap in the business consultancy and services environments. We are driven by resources, experts in their relevant fields with years of experience behind them to deliver as per the customer expectations.

IWSS has the resources, experience, technical expertise and contacts to develop, ingress and create opportunities in both public sector and the defense. Our services are not only limited to UAE but our offices and business partners abroad help build a global network bringing diversity in our operations and project support.

We represent companies and partners from all across globe to enable deliverance and help create opportunities in the competitive and complicated market.

General and Technical Consultancy

Provision of end to end consultancy services for projects in telecom, IT, imports / exports.

Our technical consultancy services are provided by a global team of engineering experts with hands-on expertise in helping you align technology needs with business goals.

Information Technology

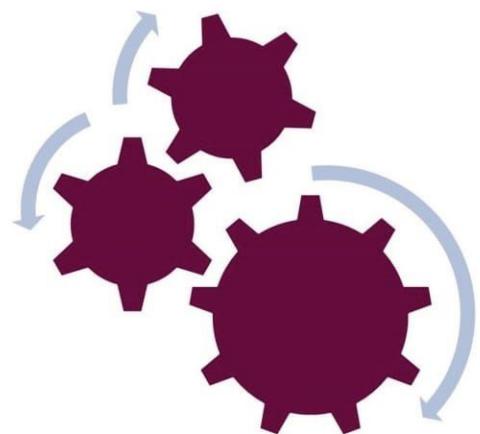

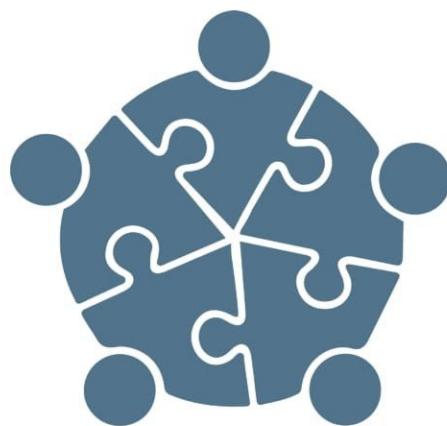

Starting from designing to deployment and service level agreements, we support our customers end to end.

Company Representations

IWSS has right human resources and business networking to represent companies and develop their business.

Defense and Public Sector Dealings

One of our core strength is our experience to deal with Defense and Public sector for multiple business opportunities.

Test & Measurement Equipment

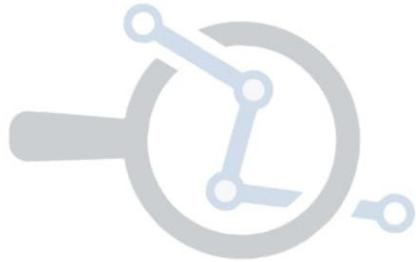

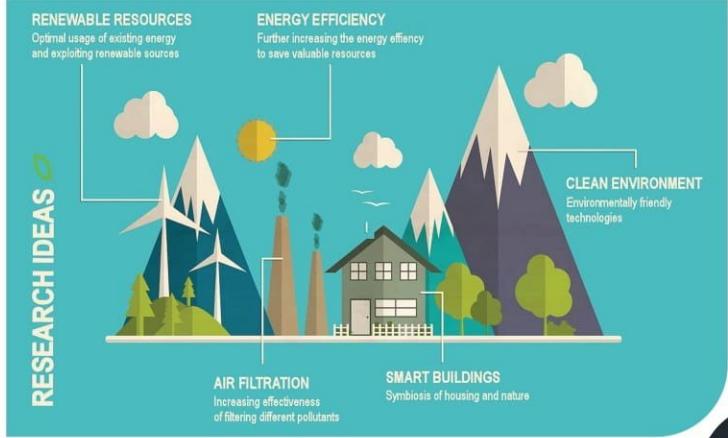

IWSS has strong relations with various companies excelling in the field of Test & Measurement Equipment and can match needs of customers.

Energy Sector

IWSS has experience of representing foreign consortiums and companies in both energy and alternate energy projects corresponding to the growing needs.

Research & Development

One of our forte is R & D. Our competent team has capacity to deliver multifaceted R&D requirements.

Security & Surveillance

Security requirements have been raised to a high level in nation-states around the world. The resulting increase in routine surveillance of citizens, and especially of travelers, raises questions of sociological interest regarding the intensified means of technology-dependent governance common to many countries. The quality of social existence in a globalizing world is directly affected by the automated identification and social sorting systems proliferating especially at borders but also in everyday life.

Military Product

Telecommunications

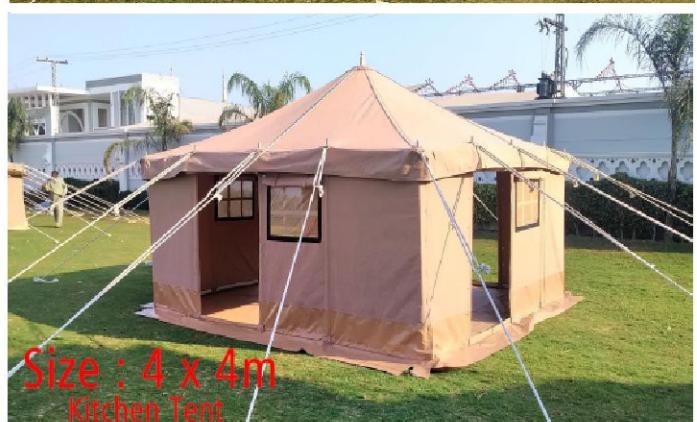

In the challenging diverse market of telecommunications we provide turnkey solutions with right human and equipment resources.

Premium Food Items

Wheat & Wheat Flour

Milled in a proprietary Unifine high-velocity impact milling system, producing a super-fine, highly nutritious, 100% grain, single source flour. Unlike traditional wheat flour, this super-fine grind creates loftier baked goods with greater volume than would be expected from a traditional wheat flour.

Use for: bread, rolls, pancakes, muffins, and cookies; and in any recipe calling for wheat flour.

"It's not just the grain, it's the grind"

Rice

We feel pleasure to introduce ourselves as a well-known International rice export Company

We have a stronghold in Domestic as well in Global Market and can supply the commodities with the most competitive price by International Quality Standards.

Pakistan Rice has created a trend and culture of processed quality products.

We delivers Top Quality Rice, Well-cleaned, textured, graded and inspected by our highly experienced Quality Assurance unit to make sure that quality is not compromised at any stage of the process.

Sugar

A sparkling white, highly refined sugar, suitable for human consumption and use in a wide range of food applications mainly in the industries of confectionery, clear drinks, dairy products, bakeries and pharmaceutical products. We offer other varieties of refinement as per customer requirement.

A white sugar commonly produced for local consumption. It is formed by crystallization process, without chemical refining. It is used in large scale baking, drink making and as table sugar for everyday consumption.

Mango

We are leading exporter and supplier of mangoes from pakistan. Mango, the king of fruits is the second major fresh fruit in Pakistan. Pakistani Mango is considered as the fruit of excellence.

Pakistan is the 5th largest producer and the 3rd largest mango exporter in the world. Its soil and climatic conditions enable production and market supplies of good quality fresh mango. Pakistani mangoes therefore enjoy a prominent position in the international market.

We constantly work on being top among pakistan mango exporters and pakistan mango suppliers.

To be on the list of pakistan's best mango exporters is our priority and hence we export best quality pakistan mango to all over the world and we are expanding our self as pakistan mango exporter. Our packaging are handled exceptionally to reflect international standard and keep the freshness of mangoes for the customers.

Citrus Fruits

Mandarin / Orange / Kinnow orange all are types of citrus fruits. It is filled with nutritional values and vitamins. Mandarin orange is cultivated and exported all over the world. Orange export from Pakistan is also seeing some drastic boom in the international market. Pakistani Mandarin Orange is citrus fruit (Fruiter orange), which is also known as Kinnow Orange.

Indeed, mandarin Orange / sangtra offers a fantastic taste and various medical advantages. It supports your immune system, gives you better skin. Pakistan kinnow export is increasing. It even improves your heart condition and cholesterol level. Eating Pakistan Mandarin oranges may help in decreasing the danger of respiratory disorders. It limits certain cancer growth as well.

Spices

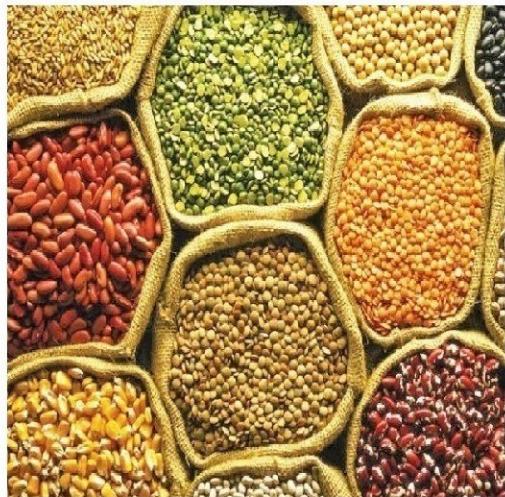

We are serving to assure the availability of all kinds and every form of spices include a variety of spices grown across Pakistan & the subcontinent. we are also engaged in the trading and export of all types of spices & their products because Pakistan produces a variety of spices, many of which are native to the subcontinent, while others have their origin in other parts of the globe with similar climates, and have since been cultivated locally for centuries.

Spices have been an integral part of every cuisine since ancient times, adding flavor verve and fragrance to it therefore we offer products that are hygienically packed, and well-known for quality, purity and value.

Our qualitative products have helped us in earning a huge list of clients in international market. The main aspect of our company is total quality management, so that we can create a long lasting relationship with our esteemed clients.

Pulses

Being one of the Pulses exporters, We makes sure that the products reach the destinations fresh and on the promised time. We have connections across the globe and provide hassle-free export of pulses. We are a pulses exporter who believes in transparency of services and is always happy to help with any issues our clients may have. We wish to spread Pulses to every corner of the world through our services.

Pink Salt

Himalayan pink salt is a naturally pink coloured variety of salt that is mined in Pakistan near the Himalayan Mountains of South Asia. Pink Himalayan salt is mined like rock salt; however, it is technically sea salt. Salt is a nutrient that plays an important role in maintaining human health.

Metal & Scrap

Other Commodities

Copper Scrap

Quality Copper Mill-berry scrap 99.99% Usage

Electric light industry, machinery manufacturing, Building industry ,defense industry, and other fields Manufacturing industrial valves and fittings,Instrument sliding bearing.(EL)

- 1.High purity(Sn99.99 Sn99.95 Sn99.90), excellent weldability, good infiltration.
- 2.Clean, beautiful.After welding, insulation, high resistance, low ionic contamination, PCB board welding residual minimal.
- 3.Good oxidation resistance, low tin slag and cost savings.
- 4.Solder joint is bright, full and uniform.
- 5.Economical and can produce the lowest consumption of the solid solder joints.
